**SEC. 4. PREDISASTER HAZARD MITIGATION.**

Section 203(m) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5133(m)) is amended by striking "December 31, 2003" and inserting "September 30, 2006".

# **NATIONAL TRANSPORTATION SAFETY BOARD REAUTHORIZATION ACT OF 2003**

Mr. FRIST. Mr. President, I ask unanimous consent that the Senate now proceed to the immediate consideration of Calendar No. 112, S. 579.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 579) to reauthorize the National Transportation Safety Board, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. MCCAIN. Mr. President, I am pleased that the Senate is now considering S. 579, the National Transportation Safety Board Reauthorization Act of 2003. This bill was introduced by Senators HOLLINGS, LOTT, HUTCHISON, ROCKEFELLER and myself, and it was unanimously approved by the Senate Committee on Commerce, Science, and Transportation on March 22, 2003.

Each year, the National Transportation Safety Board, NTSB, investigates more than 2,000 transportation accidents and events, including all fatal aviation accidents, and hundreds of railroad, highway, maritime, and pipeline transportation accidents. The NTSB also conducts safety studies, and evaluates the effectiveness of other government agencies' programs for preventing transportation accidents. Most importantly, the NTSB makes safety recommendations, based on its investigations, to federal, state and local government agencies and to the transportation industry regarding actions that should be taken to prevent accidents.

This legislation would authorize appropriations for the NTSB for fiscal years 2003 through 2006. It also would allow the NTSB to relinquish responsibility for providing assistance to families of victims of accidents to the FBI if it takes over the investigation, and give the NTSB expedited procurement procedures to aid in accident investigations.

The bill is being proposed along with an amendment that incorporates provisions from the House-passed version of its NTSB reauthorization bill, H.R. 1527. The amendment was developed in cooperation with the House Transportation and Infrastructure Committee. Among other things, it includes a provision that would require the Secretary of Transportation to submit annual status reports on the Department's progress in meeting the safety recommendations stemming from the NTSB's "most wanted list."

The NTSB's safety investigations and the resulting recommendations play a vital role in ensuring the safe and effi-

cient operation of our nation's transportation system. It is my understanding that the NTSB supports this legislation.

I urge the Senate to pass this important legislation so the House of Representatives can consider it before they adjourn for the year.

Mr. FRIST. I ask unanimous consent that the McCain-Hollings amendment at the desk be agreed to; the bill, as amended, be read the third time and passed; the motion to reconsider be laid upon the table en bloc, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2211) was agreed to, as follows:

(Purpose: To add provisions relating to accident and safety data classification and publication from H.R. 1527, as passed by the House of Representatives, and for other purposes)
